MODULAR ICE MACHINE WITH STORAGE BIN

353 lbs (160 kg) per 24 h ICE PRODUCTION	**276** lbs (125 kg) ICE STORAGE	**765** W POWER	**110-127** V / 60Hz VOLTAGE

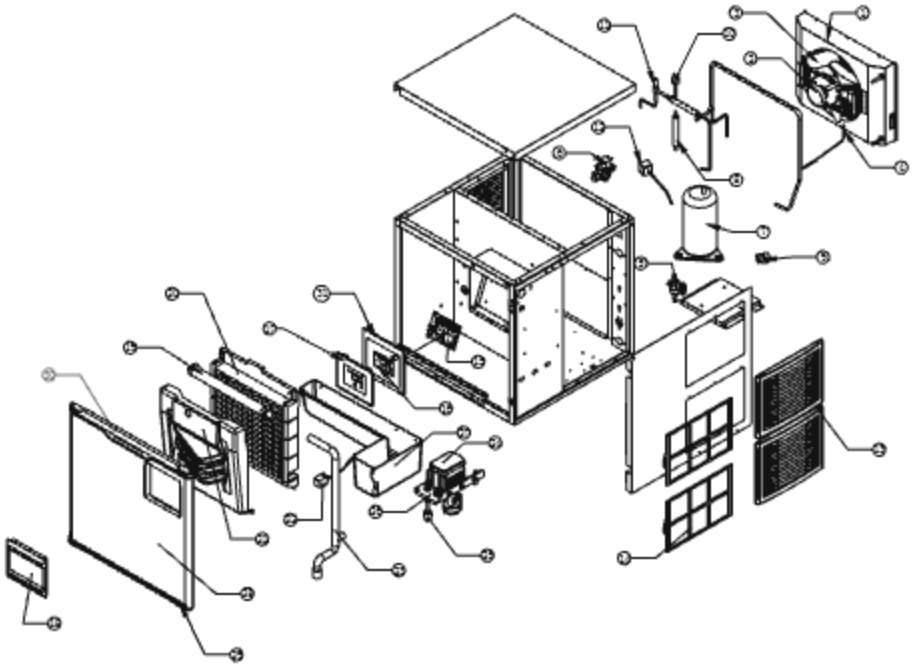

JUPITER
REFRIGERATION

OVERVIEW

Modular ice machine with a matching storage bin, utilizing R290 refrigerant. It produces up to 353 lbs of ice per 24 hours and the bin holds 276 lbs, so ice is ready during peak hours. Runs on 110-127V / 60Hz with 765 W of power, and its modular design makes maintenance and service easier.

TECHNICAL SPECIFICATIONS

MODEL	**JMFI-350**
ICE PRODUCTION	**353 lbs (160 kg) per 24 h**
ICE STORAGE	**276 lbs (125 kg)**
POWER	**765 W**
VOLTAGE	**110-127V / 60Hz**
REFRIGERANT	**R290**
DIMENSIONS	**22" W x 32.8" D x 67.5" H (560 x 832 x 1715 mm), with bin**
GROSS WEIGHT	**207.2 lbs (94 kg)**
VOLUME	**28.22 ft³**
WEIGHT	**207.2 lb**

DETAILS

COMPRESSOR	**PSD135XW-H3EUN**
EVAPORATOR GRID	**12 rows x 13 columns, chemical nickel plated**
CONDENSER	**Microchannel, air-cooled**
