MODULAR ICE MACHINE WITH STORAGE BIN

496 lbs (225 kg) per 24 h ICE PRODUCTION	**375** lbs (170 kg) ICE STORAGE	**1360** W POWER	**110-127** V / 60Hz VOLTAGE

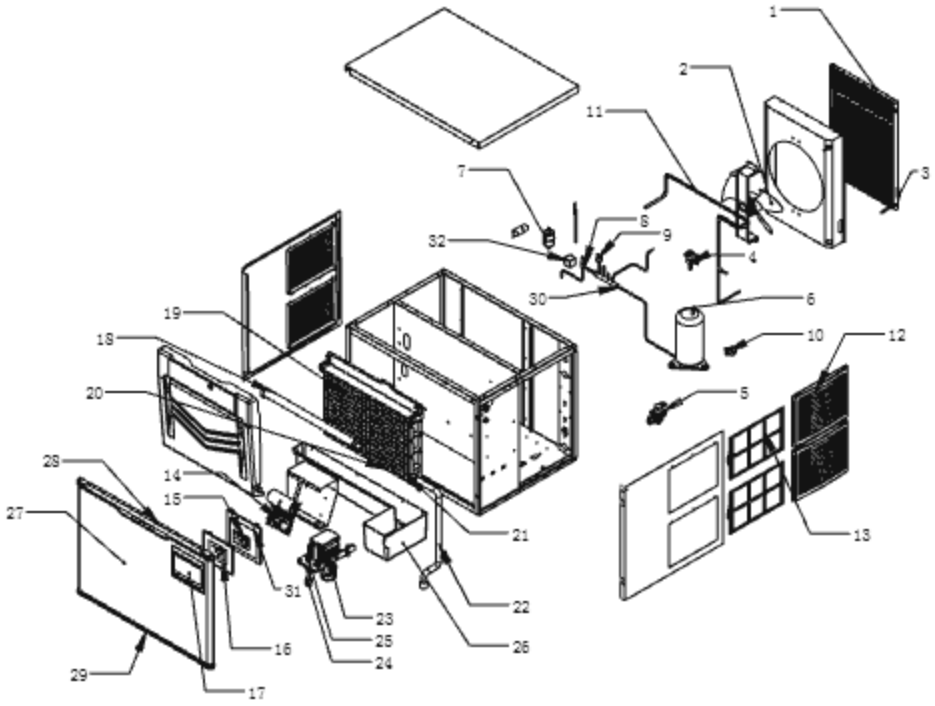

JUPITER
REFRIGERATION

OVERVIEW

Modular ice machine with a matching storage bin, utilizing R290 refrigerant. It produces up to 496 lbs of ice per 24 hours and the bin holds 375 lbs, so ice is ready during peak hours. Runs on 110-127V / 60Hz with 1360 W of power, and its modular design makes maintenance and service easier.

TECHNICAL SPECIFICATIONS

MODEL	**JMFI-500**
ICE PRODUCTION	**496 lbs (225 kg) per 24 h**
ICE STORAGE	**375 lbs (170 kg)**
POWER	**1360 W**
VOLTAGE	**110-127V / 60Hz**
REFRIGERANT	**R290**
DIMENSIONS	**29.9" W x 32.8" D x 67.5" H (760 x 832 x 1715 mm), with bin**
GROSS WEIGHT	**264.6 lbs (120 kg)**
VOLUME	**38.30 ft³**
WEIGHT	**264.6 lb**

DETAILS

COMPRESSOR	**VSG184SW-A6CT**
EVAPORATOR GRID	**12 rows x 20 columns, chemical nickel plated**
CONDENSER	**Microchannel, air-cooled**
